The **PGDM+SAP** 2 years full time program at RIIM Pune integrates a comprehensive **AICTE-approved** PGDM curriculum with **SAP University Alliances Program/ Professional Certification**, creating a holistic and industry-driven learning experience. This unique combination enables students to develop strong core management and finance competencies while gaining practical exposure to SAP-based business and financial systems widely used across global organizations.

The program is designed with a **strong career and placement** orientation, preparing students for opportunities with **Big 4 consulting firms**, multinational corporations (MNCs), financial services companies, and ERP-driven organizations. To further enhance employability, RIIM offers additional industry-recognized certifications such as **CFP, CISI, and NISM**, along with hands-on exposure to the **Bloomberg Terminal and CESIM** case study simulations. The curriculum also includes practical training on **SAP ECC and S/4HANA**, enabling students to build real-world ERP expertise, market knowledge, analytical skills, and strong professional credentials.

The RIIM-CXOs Program

A Flagship Corporate Mentoring Initiative

The **'RIIM-CXOs' Program** is a flagship corporate mentoring initiative that connects PGDM students with eminent corporate leaders, providing corporate mentors from Day One and offering continuous guidance, industry exposure, and strategic mentorship throughout their academic journey.

Corporate Mentorship from Day one

Direct exposure to corporate thinking from the very first day

One-to-One CXOs Guidance

Personal mentoring by eminent corporate leaders (CXOs)

Live Industry Exposure

Real-World business scenarios & strategic decision making insights

SAP-Aligned Industry Learning

SAP-driven curriculum with consulting & industry readiness focus

Big 4-Oriented Career Mentoring

- ▶ Career preparation aligned with Big 4 consulting standards
- ▶ Interview readiness, case studies & placement preparation

Final Interview Round by CXOs

Final evaluation conducted by leading CXOs Real corporate interview experience

Transforming **Students into Corporate Ready Leaders**
(Mentored. Industry-Exposed. CXOs-Evaluated.)

Why SAP?

Official SAP License & Certification, Global Recognition (Germany)

Industry-Driven Skillset (Beyond Theory)

SAP bridges the gap between classroom learning and real business execution. Students gain hands-on exposure to live enterprise processes used by global corporations.

Global Career Opportunities

SAP is built around IFRS, SOX, GST, and international compliance frameworks, helping students understand global governance and risk.

Direct Entry into Consulting & Big 4 Ecosystem

Most consulting firms and system integrators run their core projects on SAP. MBA/PGDM students with SAP skills are **job ready for consulting roles** from Day One.

24/7 SAP Server Access

Students get round the clock access to live SAP servers, enabling unlimited hands-on practice and real-time enterprise learning anytime.

Cross-Industry Opportunity Mind-set

SAP knowledge is accepted across Manufacturing, BFSI, IT, FMCG, Pharma, Retail, Logistics, and E-commerce sectors.

Structured Problem-Solving Approach

SAP trains students to break business problems into process flows, controls, KPIs, and outcomes, strengthening analytical thinking.

Progressive SAP Learning Pathway University Alliances Program

M1 (16 Weeks)

Business & Functional Foundations
Understanding core business processes across key functions

M2 (16 Weeks)

SAP Core Training
Hands on SAP exercises with guided practice and simulations

M3 (16 Weeks)

Advanced SAP Modules & Integration
Advanced SAP modules, configuration exposure & cross-functional scenarios

M4 (12 Weeks)

Live Projects & Placement Preparation
Industry projects, certifications, CXO sessions & interview readiness

Why PGDM+SAP From RIIM?

An Industry Integrated Management Program with SAP Specialization

SAP is one of the world's most in demand enterprise finance platforms, trusted by global corporations and the Big 4 consulting firms. At RIIM Pune, SAP Finance is seamlessly integrated into the PGDM curriculum, ensuring students learn how strategic management decisions are executed through real-world enterprise systems. With strong conceptual foundations, hands-on SAP exposure, and industry-aligned training, graduates develop skills required for high-growth careers in corporate finance, ERP consulting, and finance transformation roles.

Integrated PGDM + SAP Learning

SAP Certification (Global Recognition) integrated within the PGDM framework to provide exposure to enterprise-level business and financial systems.

Bloomberg Terminal Exposure

Hands-on experience with the Bloomberg Terminal to develop real-time market understanding and analytical skills.

Industry-Oriented Skill Development

Job-relevant skills built through a combination of management fundamentals, SAP learning, and professional certifications.

Professional Certifications Advantage

Value-added CISI and NISM certifications that strengthen domain knowledge and credibility for finance and capital markets careers.

Finance-Focused Practical Exposure

Practical SAP based exposure that helps students apply finance and business concepts to real world corporate scenarios.

Career & Placement Readiness

Structured career guidance, interview preparation, and placement training to prepare students for consulting, finance, and corporate roles.
